

RECRUITMENT ADVERTISING 2025

TEFL.com Recruitment Advertising

HIGH VISIBILITY

TEFL.com provides recruiters with highly targetted, bold and effective display advertising on our platform and mobile apps. Your recruitment advertisement includes your corporate logo (within the [TEFL.com homepage](#), search results listing and your job advertisement). You can also include up to three photographs or graphics within your job post. All advertising is shared to multiple social media and fully search-engine optimised. Face-to-face recruitment advertising packages begin at just **£43.00** (c.US \$52.00 /€50.00 /¥349.00) for a 4-week, **monthly updated advert**.

PRIME POSITION

We offer a choice of update packages.. monthly, weekly, twice weekly and daily. At each update, your recruitment advert is elevated to the top of our search results listing as well as appearing within our homepage and daily and weekly newsletters. Your ads are shared to our followers on [Facebook](#), [Twitter](#), and [Linked-in](#) social media accounts. For more information on the packages we offer, check out our Recruitment FAQ at https://www.tefl.com/recruiter/recruitment_faq.html.

DISCOUNTED MULTIPLE JOB POSTINGS

Save money on your advertising by ordering multiple additional job credits with generous discounts! We also offer great savings if you wish to extend the duration of your advert (without having to re-input your advert text!).

FRESH RESUMES

The TEFL.com resume database contains 230,000+ fresh resumes. To ensure recruiters can quickly search for job-seekers actively seeking a position, we provide free access to view activated resumes (contact details redacted) and are GDPR compliant. To ensure resumes are current, only job-seekers actively seeking a new position are searchable. Recruiters may order ResumeView credits to view the contact details of job-seekers within our database. More information below.

APPLICANT PRE-SCREEN FILTER

The Benefits of Pre-Screening:

- Automated Pre-Screening ensures you only receive applications from candidates who meet the criteria as set out in your advertisement
- Specific focus on the most qualified candidates as quickly as possible. The pre-screening process should answer the basic question "does this individual meet the minimum requirements of my position?"

Find out more about Application Pre-Screen at <https://tefl.com/recruiter/psi.html>.

RESUME DATABASE SEARCH

We offer registered recruiters free access to our Resume Search engine at <https://www.tefl.com/recruiter/resume/>. To maintain job seeker privacy, all member contact details (name, address, phone, email address, etc.) are suppressed. In this 'Edited' mode, resume contact and other personal data is removed when undertaking a free search. If the recruiter requires access to the job seeker contact and personal data, an administration fee (ResumeView credit) is required in order to record access to the data. This complies with our privacy policy. All accesses to the resume database are recorded and name of recruiter and date of access is registered within the job-seeker account.

JOBALERT

EMAIL Your Job VACANCY INSTANTLY to Job-seekers

Using JobALERT your recruitment advertisement is emailed instantly to members who have indicated a preference to employment in your country. The JobALERT fee is only £0.010 (US\$0.012/Euro0.011/CNY0.08) per email sent.

****As Direct Link job applications are not submitted via the TEFL.com system, applications cannot be counted. However, your Job Applications Manager will include the resume and statistics for the job-seeker who have clicked on the "apply" button".**

InstApply, Attachment and Direct Link Applications Explained

InstApply: When the job-seeker registers at TEFL.com, he or she creates a highly detailed online resume/ CV, a copy of which is included (with cover letter) when the applicant submits a job application.

Attachment: Instead of receiving a copy of the applicant's online resume, the recruiter may select to receive job applications as an attachment in either DOC[X], PDF, ODT, RTF or TXT formats along with a cover letter.

Direct Link: This option enables the recruiter to specify a link address (usually on the website of our advertiser) to route potential applicants to a bespoke application form or information page. When the job-seeker clicks on the 'Apply' button within your TEFL.com recruitment advert, they will be routed to the specified third-party website. The recruiter will be notified that a potential applicant has clicked the job 'Apply' button. The advertiser may also view the potential applicant's resume if required from within the client account.

Advertisement Updates Explained

We offer all our advertisers maximum exposure for their recruitment advertisements via our unique update system. At each update, your advertisement listing -

1. Jumps to the top of search results and appears within the TEFL.com homepage.
2. Appears within our homepage for 48 hours.
3. Appears within our daily newsletter for 2 issues.
4. Appears within our weekly newsletter. (See above for social media sharing).

e.g. When ordering a Daily updated, recruitment advert, your advert would appear at homepage every day as well as in each issue of our daily and weekly newsletters. Your advert would also jump to top of search results every 24 hours.

YOUR RECRUITMENT ADVERTISEMENT INCLUDED IN OUR DAILY, MID-WEEK & WEEKLY FREE NEWSLETTERS
